

Secretaries Report 2017

I would like to take this opportunity to thank the current committee for all their hard work over the past year as it does take a lot of time and commitment to keep the Society running smoothly. And thank you to the 3 current committee members who aren't continuing on the committee, Sue Fraser for all her work on the committee including running the photo and colouring in competitions over the last two years. And to Natasha and Carol Miller for their contributions to the committee.

Membership is at the highest since the Society began which is a very positive sign.

More and more shows now run Pinto sections as the Pinto section becomes one of the largest breed section at many shows. We had record numbers enter the Pinto section at HOY this year with more ponies than any other year which is really great to see. Thank you to all those involved with HOY including the people who help before and on the day of the show as it does take a lot of preparation to run as smoothly as it does.

We have had positive feedback from the RAS with the way we pass on information from them to our members so hopefully everyone is keeping informed on what the RAS is planning.

On a personal note please remember that the people on our committee have jobs and family commitments so we try very hard to reply in a timely manner but cannot always but do our very best.

Julie Pascoe
